

RV Parking

The HOA will allow RV (and other vehicle) parking behind a fence.

In 2024, the HOA membership voted to change the section on RV parking as follows:

- (5) Recreational Vehicles, Boats, Campers, Trailers, and Motor Coaches. Boats, Campers, Trailers, and Motor Coaches and other recreational vehicle parking must be in a covered, enclosed parking area, ~~and must be~~ screened from view, or behind a fence. Parking accommodations for commercial or semi-truck vehicles will not be approved by the ARCHITECTURAL COMMITTEE.

However, this did not make it into the final published version of the 2025 CCRs. Which now state:

- (5) Recreational Vehicles, Boats, Campers, Trailers, and Motor Coaches. Boats, Campers, Trailers, and Motor Coaches and other recreational vehicle parking must be in a covered, enclosed parking area or otherwise screened from view. Parking accommodations for commercial or semi-truck vehicles will not be approved by the ARCHITECTURAL COMMITTEE.

The HOA Board recognizes the change was approved, but will not pursue updating the CCRs at this time due to the expense. However, the HOA will allow RV parking behind a fence.
